Plot 15, Unity Avenue Estate, Ajah, Lagos, Nigeria | github.com/MrChampion2020

PROFESSIONAL SUMMARY

Full Stack Developer with 6+ years across the MERN stack and React Native, delivering production web and mobile products end to end — from requirements and Figma UI/UX through secure API development, testing, and deployment. Comfortable owning a feature or a full build: React/React Native and Next.js on the front end, Node.js/Express and REST/WebSocket APIs on the back end, MongoDB/PostgreSQL/MySQL for data, and JWT-based authentication throughout. Has shipped fintech, e-commerce, healthcare, and social platforms for clients across Nigeria, the US, and remote teams, and is now looking to bring that range to a mid-level full stack role on a focused product team.

SKILLS

Languages: JavaScript (ES6+), TypeScript, PHP, HTML5, CSS3
Frameworks & Libraries: React.js, React Native (Expo), Next.js, Node.js, Express.js, Mongoose
Databases: MongoDB, PostgreSQL, MySQL, SQL
APIs & Real-Time: REST APIs, WebSockets, JWT Authentication
Security & QA: Penetration Testing, Network Security, Data Protection, Postman
Tooling & Workflow: Git, Docker, CI/CD, Figma UI Design

WORK EXPERIENCE

Full Stack Developer (MERN) — *Runorx, Nigeria* Sep 2025 – Present

- Architect and build cross-platform web and mobile applications with React Native and the MERN stack, from concept to production.
- Design and implement REST APIs and WebSocket integrations powering real-time features in high-traffic environments.
- Manage MongoDB and MySQL databases, optimizing queries and maintaining data integrity across the stack.

Lead React Native Developer (MERN) — *Pejul Digital Agency* Jan 2025 – Dec 2025 (Contract)

- Led end-to-end development of cross-platform mobile and web applications for multinational clients using React Native, TypeScript, and the MERN stack.
- Directed a distributed team building and maintaining Android, iOS, and desktop applications.
- Built real-time WebSocket features for high-traffic applications, meeting performance and compliance requirements.

React.js Developer (MERN) — *Pixel Freelancer, USA (Remote)* Oct 2024 – Jan 2025 (Contract)

- Developed and optimized TypeScript-based web applications with React.js and the MERN stack for U.S. clients.
- Built scalable REST APIs with JWT authentication and integrated CI/CD pipelines to improve deployment security and speed.
- Ran code reviews and performance passes that reduced load times and improved codebase maintainability.

Project Manager (Remote) — *Opusam Nig. Ltd* Dec 2021 – Aug 2022

- Built project timelines and led cross-functional teams, lifting on-time delivery by 20%.
- Streamlined workflows across development, design, and stakeholder teams.

PHP Instructor — *Scottified, Nigeria* Mar 2019 – Sep 2021

- Taught advanced PHP backend development and mentored junior developers on scalable code architecture.
- Designed and reviewed production-ready backend systems for multiple client projects.

FEATURED PROJECTS

FoodHub247 | *PHP + Javascript* | foodhub247.com | Oct 2024 – Jan 2025

- A full e-commerce marketplace for dried proteins and food ingredients, engineered with HTML, CSS, JavaScript, and PHP. Delivers catalog browsing, cart and checkout, Paystack and Flutterwave payments, order tracking, affiliate features, and an admin panel for product and order management.

Tercescrow | *React Native + Node.js* | play.google.com/store/apps/details?id=com.tercescrow.app | Oct 2024 – Jan 2025

- Led a secure gift-card trading app from stakeholder requirements through Figma UI/UX, build, and Play Store launch.
- Built the Node.js/Express/MongoDB backend with JWT-secured REST APIs and real-time features; ran penetration testing for compliance.

Feeda — Social Media Platform | *React.js + MERN* | *feeda.us* | *Jul 2025 – Feb 2026* | *Personal project*

- Designed and built a real-time social platform end to end: infinite-scroll feeds, posts, comments, stories, and live notifications.
- Implemented a scalable Node.js/Express/MongoDB backend with WebSockets, JWT auth, and privacy controls; companion React Native app.

Ksound | *PHP + Javascript* | *ksound.live* | *Jun 2026 – Aug 2026*

- Developed the uploader, streamer, and admin dashboards from the ground up for this streaming platform.

Escrowise.io — Secure Escrow Platform | *Next.js (Serverless) + PostgreSQL* | *escrowise.io* | *Apr 2025 – Jul 2025*

- Architected a full escrow marketplace on Next.js App Router with Prisma/PostgreSQL, server actions, and dynamic routing.
- Built JWT-secured payment protection and automated dispute-resolution flows; penetration-tested and deployed on Vercel.

Above Lifestyle — Mobile App & Web Platform | *React.js + MERN* | *abovelifestyle.com* | *Jul 2023 – Mar 2024*

- Owned the full lifecycle for a premium leisure-destination platform in Lekki, from Figma wireframes to production deploy.
- Built real-time menu, booking, and reservation flows with secure authentication and payments.

Arctic OBGYN Patient Portal | *React.js + MongoDB* | *arcticobgyn.com* | *Apr 2024 – Sep 2024*

- Directed a healthcare patient portal from compliance requirements through a HIPAA-aligned, encrypted appointment-scheduling system.
- Implemented JWT authentication and led penetration testing before production launch.

Kokolet Luxury E-commerce | *React.js + TypeScript + MERN* | *kokoletluxury.com* | *Feb 2024 – Jul 2024*

- Built a Nike sneaker retail platform end to end: TypeScript/React frontend with advanced filtering, cart, and secure checkout.

The Gifting Service | *React.js + Next.js* | *thegiftingservice.com* | *Jan 2023 – Jun 2023*

- Built a personalized e-commerce platform with a Next.js frontend for SEO/performance and a Node.js backend with secure payment gateways.

Megarusi — Oil & Gas Company Platform | *React.js + MERN* | *megarusi.com* | *Jun 2025 – Present*

- Built the full company site and digital portfolio for an oil & gas procurement firm, with a scalable MERN backend for content and SEO.

Ndozi Business Platform | *React.js + Node.js* | *ndozi.com* | *Sep 2022 – Feb 2023*

- Led a local business marketplace from feature spec to launch, with real-time UI and WebSocket-driven live updates.

Linx (Casino — restricted) | *React.js + MERN* | *linxdash.com* | *Mar 2025 – Dec 2025*

- Delivered a conversion-focused marketing site with lead-generation forms, analytics dashboards, and omni-channel support.

Prime Procurement Limited | *React.js + MERN* | *primeprocurementus.com* | *Jun 2022 – Oct 2022*

- Built the company site and digital portfolio for an oil & gas procurement firm, including a careers board and lead-generation forms.

EDUCATION

National Diploma in Computer Science

Delta State Polytechnic, Ogwashi-Uku | Nov 2013 – Sep 2015

West African Examination Council Certificate (O' Level)

GSS Aleibiri | Sep 2007 – Jul 2012

AWARDS & CERTIFICATIONS

- Node.js & MongoDB Expert — February 2025
- Figma UI Design (Google) — March 2025
- Cisco CyberOps — December 2024
- NITDA Cyber Security — November 2024
- Cisco Cybersecurity Analyst — June 2024
- MERN Full Stack — March 2021
- PHP Backend Development — January 2017
